

NEW PAPERS IN HUMAN MEDICINE AND VETERINARY ISSUED BY ISCO3

En los últimos meses, ISCO3, ha estado muy activo en varios frentes. Por una parte, eligiendo nuevos miembros. Proceso iniciado a principios de enero de este año y finalizando exitosamente el 1 de julio de 2023, cuando los nuevos miembros se incorporaron oficialmente al comité. <https://isco3.org/elected-new-members-of-isco3/>

Por otra parte, ISCO3 ha dedicado buena parte de su actividad a analizar los beneficios de la ozonoterapia, tanto en medicina humana como en veterinaria. Como consecuencia de esta intensa actividad investigativa, formativa, y divulgativa, diferentes borradores se han discutido, analizado, reelaborado y finalmente aprobado por los miembros de ISCO3. Todos estos documentos se pueden consultar, en forma totalmente gratuita, y en varios idiomas, en la página web de ISCO3, <https://isco3.org/officialdocs/>

El resultado de este intenso trabajo ha sido el siguiente:

MEDICINA HUMANA

Complementary Treatment of Fibromyalgia with Ozone Therapy (1 mayo 2023). The draft was written by the members of ISCO3 Drs. Carmen Helena Acevedo and Gregorio Martínez Sánchez.

VETERINARIA

Insuflación rectal en pequeños animales (8 julio 2023). El borrador fue redactado por el miembro de ISCO3 DVM Roberto Siqueira. Documento disponible en castellano e inglés.

Paravertebral Ozone Therapy in Small Animals (April 1, 2023). The draft was

NEW PAPERS IN HUMAN MEDICINE AND VETERINARY ISSUED BY ISCO3

In recent months, ISCO3 has been very active on various fronts. On the one hand, choosing new members. The process started at the beginning of January of this year and ended successfully on July 1, 2023, when the new members officially joined the committee. <https://isco3.org/elected-new-members-of-isco3/>

On the other hand, ISCO3 has devoted a good part of its activity to analyzing the benefits of ozone therapy, both in human and veterinary medicine. As a consequence of this intense investigative, educational, and informative activity, different drafts have been discussed, analyzed, reworked, and finally approved by the members of ISCO3. All these documents may be consulted, completely free of charge, and in several languages, on the ISCO3 website, <https://isco3.org/officialdocs/>

The result of this intense work has been the following:

HUMAN MEDICINE

Complementary Treatment of Fibromyalgia with Ozone Therapy (May 1, 2023). The draft was written by the members of ISCO3 Drs. Carmen Helena Acevedo and Gregorio Martínez Sánchez.
